

PASCOM[®] ONE

We Upgrade Business Communications

PASCOM® ONE

We upgrade business communications

pascom ONE is the upgrade for your business communications and is with you wherever and however you work best.

In the office, in home office or on the go, all you need is an Internet connection and your smartphone or your laptop. pascom ONE combines cloud telephony, collaboration and contact centre into a single all-in-one solution that is accessible from anywhere.

From SIP trunking and business telephony to messaging and collaboration, pascom ONE puts all the tools at your fingertips and allows you to connect with colleagues and customers simply and effectively.

With pascom ONE, the journey to cloud communications and the digital workplace has never been simpler.

All-in-one Business Communications platform, not just a phone system

Cloud-hosted phone system and SIP Trunking in ONE solution

Intelligent ACD incl. IVR, time checks, call labels & skills-based routing

Enhanced in-call experiences with Music on Hold & custom prompts

Centralised multi-source phone book & contacts management

Mobile & Desktop Unified Communication and Collaboration apps

In-app & web video meetings to connect with colleagues & customers

Who's calling notifications with detailed caller & call-flow information

Analytics Wallboards for real-time and historical performance measuring

Seamlessly Integrates into your everyday workflows

pascom ONE provides several options to seamlessly connect 3rd party applications. Connect to and search local phone books, i.e. Outlook, apple contacts and Android contacts, directly via your pascom desktop and mobile apps.

pascom's Click2Dial, CTI and TAPI features enable direct dialling from your favourite business apps. Out-of-the-box connector templates make connecting your essential 3rd party applications (CRM, ERP, MS Azure, LDAP etc) extremely simple. The pascom REST API allows you to create your own highly customised integrations.

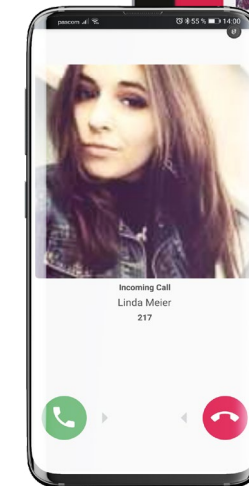

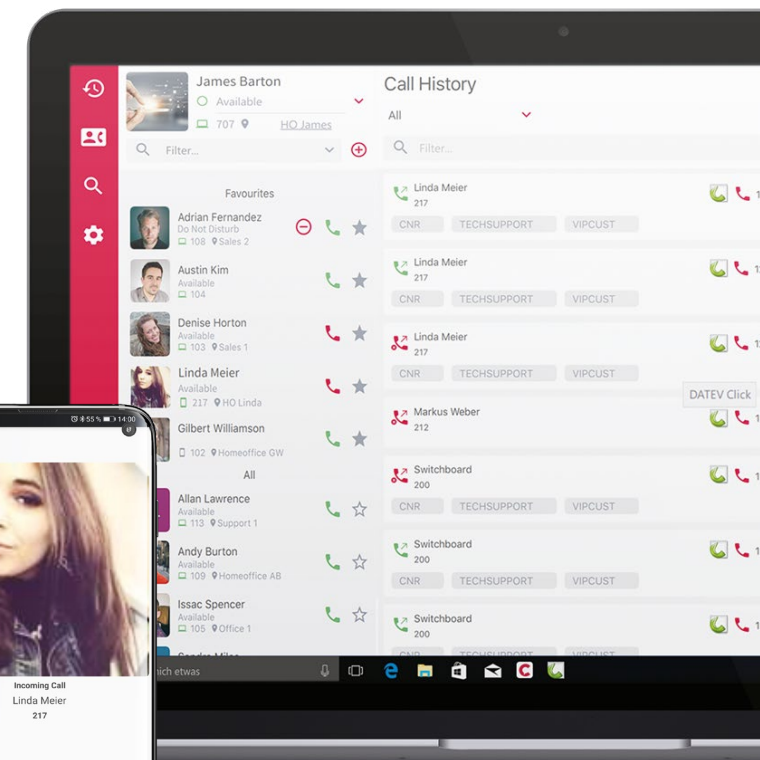

Call, Chat, Share & Meet from anywhere in ONE app

Access essential telephony tools from Home Office and on the go with pascom's mobile & desktop apps. Make and receive calls on your office number no matter where you work, even on your smartphone.

From calls and chats to team messaging and video meetings, the pascom apps unify all your essential Team Messaging, file sharing and video and web meeting functions in ONE app.

pascom's mobile-first philosophy allows users to remote control mobile devices from their desktop app & delivers the freedom and mobility of their smartphone coupled with the comfort and ease of use of the pascom desktop app.

Want to tell colleagues you are working from home, switch your preferred device to your mobile and change your follow me settings with just one click? pascom client profiles manage all of the above and more to allow users to customise their apps to match how, where and when they are working.

WHAT ARE YOU WAITING FOR? IT DOESN'T GET MUCH BETTER.

Except of course thanks to our regular upgrades.

pascom ONE is your ticket to the new freedom in digital communication for your business. Keeping everyone with everything better connected.

TRANSPARENT PRICING

We are not a fan of hidden costs, we don't believe in playing tricks with hidden add-ons. Our "Concurrent User" concept makes calculating pascom solution costs is straightforward and ensures your business benefits from one low monthly fee for all your communication needs.

STATE OF THE ART TECH

Fulfil all your communication needs directly via the cloud, keeping you and your team connected, whether on your desktop, mobile in the office or in Home Office.

FREE TRIAL, NO STRINGS ATTACHED

Your perfect start: test the full functionality free for 30 days. Upgrade at anytime. The free trial offer includes 10 concurrent user licences, which can be dynamically and flexibly used by any number of employees, a German land-line number plus 100 minutes prepaid Credit.
